

Ergonomic Consulting, Software & Workplace Solutions

WHO IS ERGO SQUAD?

We are workplace consultants and solution providers assisting businesses around the globe. It is our mission to ensure employers and their employees realize the fullest benefit from the considerable investments made to guarantee employees are safe and able to perform their work to the best of their abilities.

Ergo Squad strives to simplify the process necessary to identify, communicate and implement sustainable solutions that enhance the interaction between people and resources.

Through personalized solutions, organizations can improve worker performance and comfort, and identify substantial cost reductions associated with ergonomic and human resource management needs.

HOW?

Through a full-service approach which includes consulting, Comfort Zone™ office ergonomic training and risk mapping software and proven workplace product solutions, we help employers identify and correct the factors which impede worker performance and put them at risk to work-related injuries.

“Comfort Zone is a critical part of our award winning ergonomics program. It has streamlined our process, making us more effective by allowing us to target at risk employees quickly and effectively. It has also empowered the employees to become more active in their own ergonomic success.”

- Keith Osborne, HSE Site Specialist
Honeywell

COMFORT ZONE

Comfort Zone is our web-based office ergonomic assessment, training and risk mapping software that provides employers a means to identify and correct the factors that impede worker performance, putting them at risk of injury. By eliminating risk factors, employers are able to close the gap between current and potential performance.

With Comfort Zone, employers are able to:

- Determine who to see, when to see them and how to see them
- Provide employees the ability to self-correct and improve their interaction with the work environment.
- Provide management with metrics on the impact of each initiative.
- Continually identify and measure opportunities for improvement.
- Furnish management with ROI data justifying current and future investments.

Key Benefits Include:

- Complete Web-based Solution
- Enhanced Worker Performance/Faster Savings
- Comprehensive View of Workplace Discomfort
- Tools for Corrective Action, Risk Mitigation
- Global Adaptability
- Efficient Management of Ergonomic Interventions
- Ergonomic Training Library

- Employee Equipment Manager
- Email Manager
- Ergonomist Tablet-Based Evaluation (TBE) with pre-formatted reports (no more cutting and pasting)
- Comfort Zone Training Manager
- Comfort Zone Employee Actions
- Comfort Zone Executive Summary
- Comfort Zone Risk Mapping

Save time and maximize effort!
Manage remote location ergonomics easily!
Real predictive analytics providing
preventative actions for the first time!

Now you CAN see the forest for the trees!
Spend your time managing the program
not running around putting out the fires!

Comfort Zone Survey

The New Comfort Zone Enterprise Ergonomics Management System (EEMS) brings you the World-Class methodology used to build and manage the Outstanding Ergonomics Program!

Just a short 7 minute survey that provides you with an enormous amount of data in actionable bytes on the status of your work force. You get the means to identify and correct the factors that impede your employee performance, putting them at risk of discomfort and injury significantly impacting:

- Absenteeism
- Workers' Compensation Claims
- Presenteeism
- Time away from work
- Health care costs

The reality is that approximately 60% of your employees are experiencing significant discomfort, pain and even injury at their workstations. Many of them are visiting massage therapists, chiropractors and medical doctors for relief thus decreasing your bottom line!

OSHA is enforcing workplace ergonomics programs. Comfort Zone will provide most of what you need for compliance.

The Ergo Squad Enterprise Ergonomics Management System (EEMS) methodology is built around Six Sigma

- **Define:** We work with our clients to define what their program should entail considering their corporate culture, wellness, financial and corporate goals and mission statement.
- **Measure:** Utilizing the world class Comfort Zone Survey module we will measure the issues impacting your employees at their workstations.
- **Analyze:** Utilizing the Comfort Zone Analytics Engine we identify the best short and long term solutions for identified issues to meet the unique needs of your enterprise.
- **Improve:** Develop the processes to implement the program including: surveys, assessments, follow-ups, logistics, products to solve identified issues.
- **Control:** Build the metrics to track the efficiency of the processes including control charts and identify any needed program adjustments.

"You cannot manage what
you do not measure."

- Peter Drucker

SpaceArm

An ergonomic and space saving monitor support for single or multiple monitor applications. Also can function as an ergonomic laptop solution.

2

Pelican Drawer

A unique and discreet storage solution that provides unrestricted movement under work surfaces. It can be used for hanging files, handbag storage, cash boxes, laptops, ipads, personal items and more.

3

SpaceBeam

Increases vertical space and functional efficiencies. Helps facilitate task related work materials within easy reach and viewing by mounting the SpaceBeam onto panels of workstations, freestanding caseworks or millwork applications.

4

ILS - Sit and Stand

ILS converts any worksurface in a panel based or DIRT wall workstation to a height adjustable solution by simply replacing cantilever brackets with ILS legs and supportive hardware.

5

Wave Light

An ergonomic LED task light solution with dimming and ambient light detection capabilities.

ERGO SQUAD

6

Elevator CPU Holder

A sustainable design solution; Elevator can be as flexible as your workstation. The fabric mesh sling enables flexibility and adjustments for a wide range of CPU sizes as your technology needs advance.

7

Privacy Panels

When additional privacy is needed, adding Privacy Panels to the SpaceBeam is quick and easy.

8

Olé Chair

Ideal for collaborative workspaces.
