## the OM5 series™

officemaster

Hip. Smart. Chic. At a price you can afford.  
Who says you can't have it all?

The OM5 Series™ offers simplicity with a purpose. A self-regulating chair, OM5 intuitively responds to a wide range of body weights and sizes without the need for manual adjustments. Whether to complement the décor of an executive suite or a team workspace, the OM5 Series™ fits any environment and any purpose.

The result of a two-year collaboration between talented designer Francisco Romero of Phidesign and the engineering team at Office Master, OM5 features patent-pending “body-activated motion” that automatically adjusts to the user. Expertly designed and manufactured, OM5 is intuitive, user-adaptive, and uniquely suited for today's flexible working environments.

Advanced ergonomics, finely tailored styling, and attention to comfort – all Office Master hallmarks, and all found in the truly innovative, yet attractively priced OM5 Series™.

# leads by example

OM5 is the embodiment of practical design – its patent pending body-activated motion means the chair learns from and adapts to you – eliminating the need for complicated multiple knobs and levers.

The XXIXth Annual Occupational Ergonomics and Safety Conference  
Seattle, Washington, USA  
June 1-2, 2017

Combining modern curves with clean lines, the OM5 conveys an air of understated sophistication – while its specifically calibrated geometry does the work of balancing your body's motion in any position. Simplicity, with a purpose.

dares to be simple

June 1-2, 2017

plays well with others

Embedded with a bubble cell support structure, the seat cushion works in tandem with an attenuated suspension membrane to create a long-lasting, comfortable sit – ideal for long meetings and team collaborations.

## features

Sitting is a dynamic activity, best addressed by a chair that recognizes a person's natural tendency to readjust throughout the day. OM5's intelligent design addresses the multitude of positions and postures people assume while sitting. The patent-pending user driven technology uses a unique geometry that links the seat and back movement around an ergonomically positioned hip pivot point, resulting in a highly comfortable chair – whatever your position.

**Variable Back Resistance**  
Depending on the user's body position, rollers in the seat and back respond with more or less resistance to recline, promoting healthy motion and lower back support.

**Body-Activated Motion** The calibrated geometry that balances your body's motion with the chair's recline and allows for infinite dwell along the travel path.

**PolyFlex Back** Tailored slat lengths, spacing, and attenuation in the back membranes work in concert to provide firm or soft support, where and as needed.

**Swing Arm** Provides the chair's unique aesthetic flair while serving the critical purpose of bringing the seat and back into synchronized harmony.

**Front Edge Waterfall Flex**  
Created with a variable flex technology that adjusts to each user's thigh length and range of motion needs, the waterfall edge adjusts seat depth.

#### LIMITED WARRANTY

The manufacture of Office Master office seating is conducted under the highest industry standards with careful attention to detail and individual inspection of each and every unit. All OM5 Series™ structural components (including gas cylinders, metal and plastic parts) as well as control handles are guaranteed against structural failure for 12-year warranties under normal commercial use and to the first purchaser. Casters and Office Master in-stock upholstery items have a 2-year commercial use warranty. COM/COL and graded-in fabrics are not covered under Office Master warranties. Standard commercial use is defined as the proper usage for one single shift, a total of 40 hours or less per week and by persons weighing 300 lbs. or less for the OM5 Series™, unless otherwise specified by Office Master.

Should any item fail, please return product to the Dealer from whom it was purchased. The Dealer will send the defective part to the Manufacturer, freight prepaid. The Manufacturer will repair or replace the defective part and return it to the Dealer, freight prepaid. Please request written authorization for returning defective parts to the Manufacturer. Returned defective parts will NOT be accepted without prior written authorization. This warranty does not apply to items subjected to abuse, misuse, neglect, alteration, or damage caused by shipment, storage, accident, fire, flood, or act of God.

# what do your chairs say about the way you work?

Encourage the free flow of ideas with seating that keeps employees active – and thinking – throughout the day. The complete OM5 Series® is a dynamic family of task, executive, conference and collaborative seating that is tailor-made to fit modern employees and team-oriented work environments.

The OM5 Series® Work and Active seating all feature “body-activated motion” that was inspired by a desire to create ergonomic seating that is both intuitive and highly responsive. Through precise engineering and well-balanced geometry, all of the seating in the complete OM5 Series® subtly respond to moment-by-moment micro-changes in body position to facilitate mind and body well-being.
