Josedell M. Guerra Ruiz, B.S., is a Master's in Public Health (MPH) student at the University of Texas at El Paso (UTEP). She has a position as a graduate research assistant for the Center for Transportation Infrastructure Systems (CTIS) at the College of Engineering. Additionally, she is the student representative for the College of Health Sciences' Advisory Board, and social media and logistics manager for the BioErgonomics Laboratory. Josedell's goal is to become an interdisciplinary, occupational ergonomics and environmental health expert. Her professional journey began when she was awarded an academic scholarship to study her bachelor's degree in the U.S. Josedell successfully earned her Bachelor's in Biological Sciences with a Biomedical Concentration, enrolling in the Master's in Public Health program at UTEP immediately after, where she has decided to focus her career path on the field of Occupational ergonomics and Environmental Health. During her MPH, Josedell has joined local meetings from the American Society of Safety Professionals (ASSP), perform Ergonomic studies on railroad workers with Page Engineering Inc., teach Master students in Ergonomics about instrumentation, and conduct occupational and community health risk assessments from air contaminants exposure. Josedell has also been granted a wide array of awards such as the Gregg Stanley Drow and Doris Larson Drow Memorial Endowed Scholarship, the HHMI/ Persist Summer Research Program Internship Award, the College of Science Honors Degree, the Academic and Research Excellence Undergraduate Student Recognition for the Career in Biomedical Sciences, and the White Award.
