JULIE BOYD

jboyd16@murraystate.edu

Dr. Julie Boyd has 24 years of experience working in environmental, health, and safety. She has been an assistant professor in the Occupational Safety and Health Department at Murray State University for the past 10 years. Dr. Boyd's teaching and research focus involves Ergonomics and various Industrial Hygiene topics. Dr. Boyd holds a PhD in Occupational Safety & Health from Capitol University and a Master's of Occupational Safety and Health with an Industrial Hygiene emphasis from Murray State University. Before her academic career, she worked in the automotive and food manufacturing industries as an EHS professional. Dr. Boyd has owned her own consulting business, EHS Industrial Consultants LLC, since 2012. She is a Certified Industrial Hygienist (CIH-CP 12267) by the Board of Global Credentialing.
